ABSTRACT

A total of 399 species of bivalves in 52 families are deposited in the Reference Collection of the PMBC. The collection mainly comprises specimens from Thai waters with additional specimens from Malaysia, Singapore, Philippines, Indonesia, India, Vietnam, Taiwan, Mozambique, and South Africa. There are four type specimens in the collection: holotype and paratype of *Gastrochaena carteri* Nielsen, 1985, paratype of *Xenostrobus balani* Ockelmann, 1983 and paratype of *Bractechlamys adorabilis* Dijkstra & Roussy, 1993
