

# **SPECIES COMPOSITION AND DISTRIBUTION OF CEPHALOPODS IN VIETNAM**

Nguyen Xuan Due

*Institute Ecology and Biological Resources Hanoi, Vietnam*

A total of 69 species of cephalopods in 23 genera, 13 families, and 3 orders were studied from 1977 to 1997. Data from other studies of Vietnamese cephalopods are included. The distributions of cephalopods according to area and depth are also presented.
